DRIVING FOR SURVIVING

A Pediatric Oncology Equestrian Carriage Driving Program For Life

This unique **sharingVillage young survivors program** is designed to meet the **needs of children who have experienced a diagnosis of cancer** and now are planning a post treatment lifestyle.

Driving for Surviving addresses this experience physically, mentally, spiritually and socially.

Participants in this program explore these issues through the camaraderie of an expertly taught multi-disciplinary program incorporating the complete equestrian experience.

Our mission has expanded through our successful efforts to rescue horses from slaughter and train them as vital members of the Driving for Surviving team.

Over 30 children currently participate in the Driving for Surviving program, thanks to the generosity of our supporters and countless hours contributed by our Coaches and Volunteers.

sharingVillage Cancer Survivor Groups, a 501c3 New Jersey Certified Non-Profit Corporation, is supported exclusively through the generosity of private donations.
